SCALE ASSURE

ScaleAssure-VE™ is a **Managed Data Protection Portfolio** offering a number of industry leading, cloud-based protection and restore services designed to ensure reliable, enterprise-class recovery for **virtualized environments**.

DATA PROTECTION SERVICES FOR VIRTUALIZED ENVIRONMENTS

Failure to protect critical business data can be catastrophic, but traditional backup or disaster recovery (DR) solutions have been complex to deploy and costly to manage. With ScaleAssure-VE, you can choose from a cost-effective portfolio of offsite archival, backup and managed recovery services, designed to support a variety of business needs and budgets.

CLOUD ARCHIVAL & REPLICATION

Cost-effective storage with NO IN/OUT data transfer fees!

Elastic cloud repository scales to support nearly any need.

Cloud-based storage improves **accessibility and data integrity**.

Supports **compliance** and business needs with a variety of replication options.

Ideal for supporting **static virtual environments** or for **long-term data retention** needs.

CLOUD BACKUP SOLUTION

Agentless backups managed in the cloud with ease.

Self-service portal makes instant file-restore a snap.

No physical appliance or additional equipment investment necessary.

Backup on premise, hosted, or cloud based VM's.

Ideal for **critical virtual environment** protection.

CLOUD MANAGED DISASTER RECOVERY

White-glove managed service includes **one-call support guaranteed**!

Supports **near real-time data replication**.

Personalized onboarding and service configuration to fit your needs.

30 day active **DR hosting** (in case of an event) **included**.

Annual DR testing included at no additional cost.

ScaleAssure-VE™ Managed Data Protection Portfolio
Cloud Archival, Cloud Backup, and Managed Cloud Disaster Recovery services are designed to deliver enterprise-class data protection and continuity options for your company's virtualized environments.

ADVANTAGES AND VALUE OF SCALEASSURE-VE PORTFOLIO

CLOUD ARCHIVAL

- **Reduce management overhead and cost** by replacing onsite, offsite tape, and other legacy archival solutions.
- Improve **data accessibility** verses legacy archival methods.
- Elastic storage repository supports nearly **any size requirement**.
- Choose from both **Object and File/Block** repositories (prices may vary).
- Easily replicate data to **multiple geographic locations** to support retention or durability requirements.

CLOUD BACKUP

- Enterprise-class backup for **critical business applications** and virtual instances.
- Web portal allows for **simple restoration** of a single file, instance, or entire environment.
- Scalable cloud infrastructure supports **any size backup** requirement. (1000s of VMs if needed)
- Your **data is secure** in always-on, geographically dispersed, highly audited data center locations. (HIPAA & PCI DSS)
- Supports both **VMware and/or Microsoft Hyper-V**, based on business needs.
- **White glove support** available 24 hours a day.

CLOUD MANAGED DISASTER RECOVERY

- **Fully managed services** with professional onboarding and 24/7/365 white glove support.
- **One call** is all that's needed to launch recovery services in case of a disaster.
- DR **fail-over test included** after initial onboarding and once per year at no additional cost.
- Prioritized **service restoration list (defined by you)** during onboarding process.
- Flexible **RTO/RPO options** provide support for varying business needs and budgets.
- **Ongoing monitoring** of DR environment by ScaleMatrix helps ensure services are always available.
- Data integrity and confidentiality are ensured through physical, technical, and administrative **security controls**.
